## What We Do.....

We seek to ensure that all former service members as well as their families, have the resources, education, and support they need, to live a healthy, productive life based on their desires and goals.

- We will connect veterans and their families with the resources and opportunities available to them from the Department of Veterans Affairs and other community providers.
- We will educate the civilian community about transitioning from the military, the stigma around mental health, and the issues of moral injury and trauma.
- We will provide support and connectivity for veterans and their families through community partnerships and events.
